## Vuzix M400 *Getting Started*

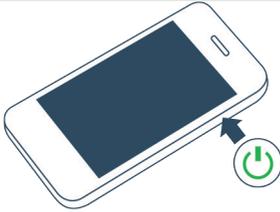

XpertEye Advanced

[amaxperteye.com](http://amaxperteye.com)

## A. Vuzix M400

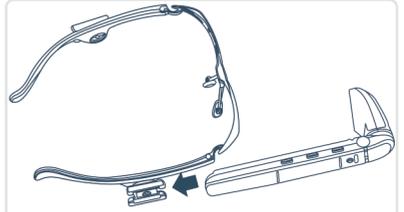

If the smartphone or the Vuzix M400 battery is discharged, charge it before using the XpertEye solution. Go to section C – “Power off and charge the XpertEye solution”.

1

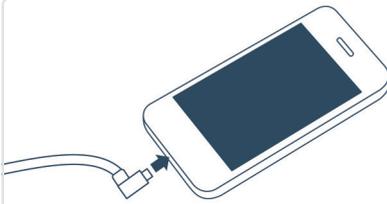

Turn on the smartphone.

2

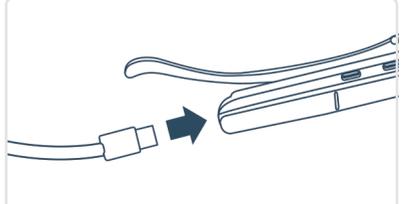

Slide the Vuzix M400 into the frame bracket.

3

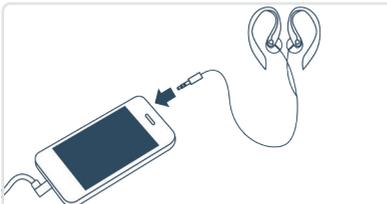

Connect the USB-C cable to the smartphone.

4

Connect the USB-C cable to the Vuzix M400.  
**Note:** Auto power on - 20 sec.  
When the Vuzix M400 battery is empty, the glasses switch on only after 5 to 10 min.

5

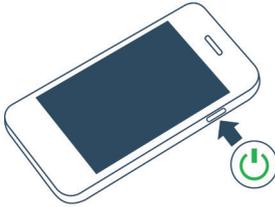

Connect the headphones to the smartphone.

## B. Vuzix M400, Holster and Battery Hub

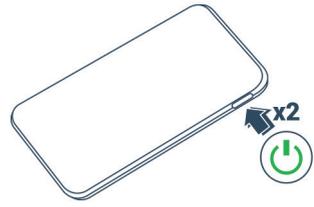

If the smartphone, the Vuzix M400 or the battery hub is discharged, charge it before using the XpertEye solution. Go to section C – “Power off and charge the XpertEye solution”.

1

Turn on the smartphone.

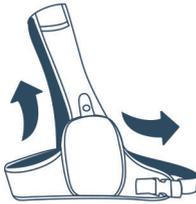

2

Turn on the hub mode of the battery hub by double pressing the power on button.

**Note:** A blue light indicates that the hub mode is on.

3

Unfold the holster.

4

Insert the USB-C cable into the holster.

5

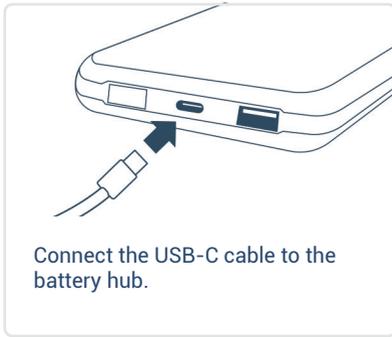

Connect the USB-C cable to the smartphone.

6

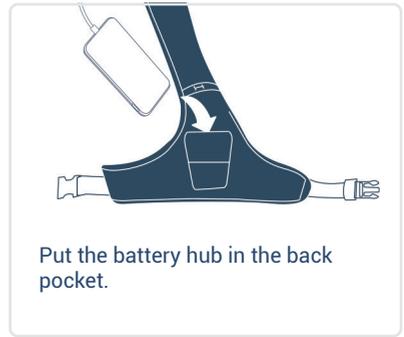

Attach the smartphone to the holster pocket.

7

Connect the USB-C cable to the battery hub.

8

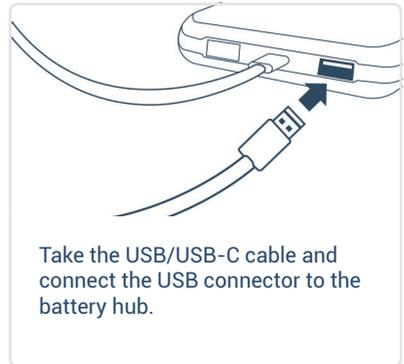

Put the battery hub in the back pocket.

9

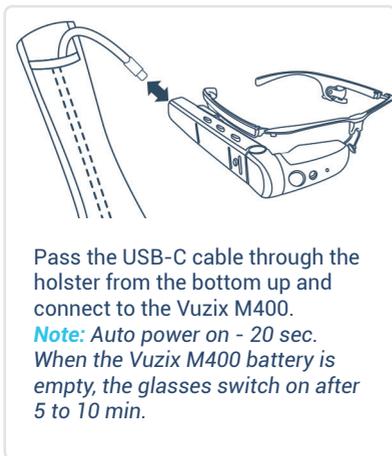

Slide the Vuzix M400 into the frame bracket.

10

Take the USB/USB-C cable and connect the USB connector to the battery hub.

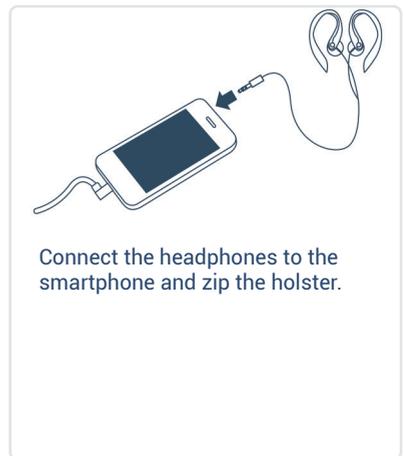

11

Pass the USB-C cable through the holster from the bottom up and connect to the Vuzix M400.

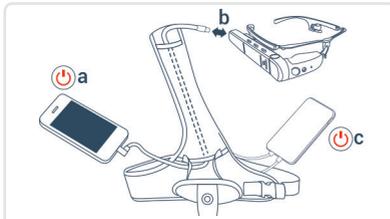

**Note:** Auto power on - 20 sec.  
When the Vuzix M400 battery is empty, the glasses switch on after 5 to 10 min.

12

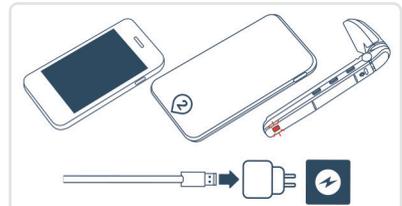

Connect the headphones to the smartphone and zip the holster.

## C. Switch off and charge the XpertEye solution

1

- a. From the smartphone, go to the XpertEye menu, press on **Power Off > GLASSES AND SMARTPHONE**.
- b. Unplug the Vuzix M400.
- c. Press the power button of the battery hub once.

2

- a. Connect the USB-C cable to the smartphone and charge it using a wall charger.
- b. Repeat this step with the Vuzix M400 and the battery hub (port n°2).

**Note:**

*Vuzix M400 charging time: 2 hours*

*Green light: Charged*

*Blinking red light: Low battery*
