Enable Confidential mode

The Confidential mode will increase your security. When the Confidential mode is enabled, you cannot download the media used and shared in the Board during the call.

Prerequisites: Make sure that you are connected to the Internet and logged in to XpertEye.
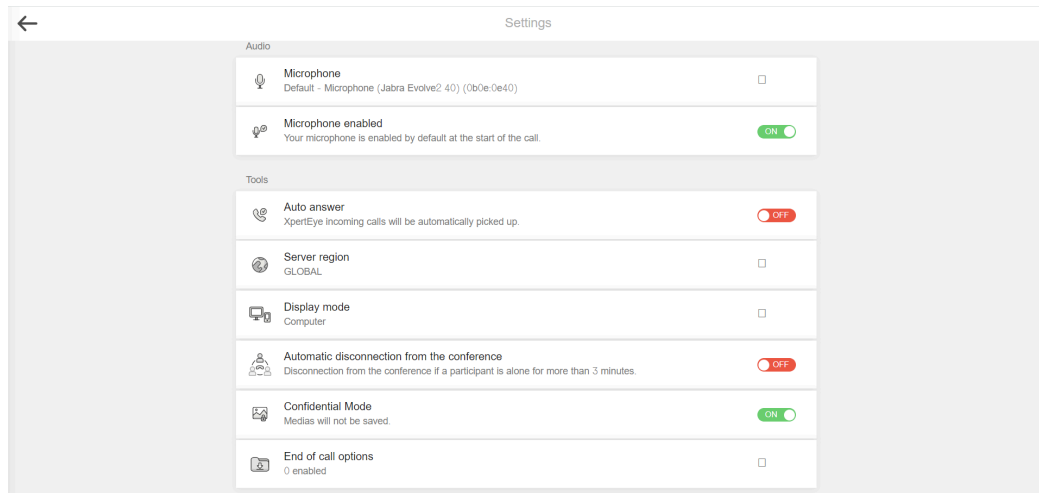

1. Click on the **MENU** ☰ .

2. Click on the **Settings** ⚙ and go to the Tools section.

3. You can enable or disable the Confidential mode 🖼 by toggling the `ON ⬤` icon.

Enable Confidential mode

Note:

- You cannot enable or disable the Confidential mode during a call.
- You cannot download images sent during a call in Confidential mode.
